WHO ARE WE?

At Sunflex Sports Infra, we've spent years creating sports and interior spaces that bring people together. From world-class stadiums to the neighbourhood playground. Our expertise lies in delivering safe, high-performance surfaces that look as good as they perform.

With PlayFlex EPDM Rubber System, we bring that same commitment to spaces where safety and comfort are non-negotiable whether it is children's playgrounds, recreational spaces, or community zones.

PLAYFLEX

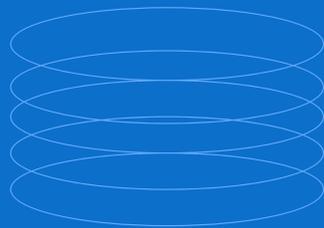

Where safety meets style

From a child's very first step to the joyful moments of chasing friends across the playground, every movement deserves a surface that's safe, comfortable, and built to last.

PlayFlex EPDM is a two-layer flooring system crafted for safety and comfort. A shock-absorbing base layer cushions impact, while a durable, colour-rich EPDM top layer adds resilience and design flexibility. The result: a fun, colourful, and safe surface that makes play areas more enjoyable for children while giving peace of mind to parents and schools.

WHY CHOOSE PLAYFLEX EPDM

CUSTOM SAFETY FOR EVERY SPACE

Thickness options are tailored to meet the critical fall height and performance requirements of your project, from cushioning little tumbles to supporting intense training.

DURABILITY THAT LASTS

Made from premium EPDM rubber granules, the surface resists wear, weather, and fading, ensuring long-lasting beauty and functionality.

ALL-WEATHER PERFORMANCE

The porous design allows water to drain quickly, keeping the surface dry, slip-resistant, and ready for use year-round.

DESIGN FREEDOM

Choose from a wide range of colours and patterns from playful, multi-colour layouts for kids to sleek, bold tones for professional sports facilities.

BUILT FOR FUN. BUILT FOR SPORT. BUILT TO LAST.

From joyful playgrounds to high-performance activity areas, Sunflex PlayFlex EPDM adapts to every space where safety, comfort, and durability matter. Its versatile design means it's just as at home cushioning a child's first steps as it is supporting every leap, run, and game in community spaces, all while adding vibrant style to the surroundings.

Children's Playgrounds

Soft, colourful, and safe, perfect for schools, parks, and residential complexes. The cushioning protects against falls, while bright designs make the playground inviting and fun.

Jogging & Walking Tracks

Comfortable underfoot, reducing joint stress and fatigue. Perfect for community parks, recreational complexes, and residential developments.

Gyms & Fitness Zones

Shock-absorbent and slip-resistant flooring for weight rooms, aerobics areas, and functional training spaces. Helps protect both equipment and users.

Multi-Use Community Spaces

School courtyards, rooftop play zones, and recreational centres, wherever safety, comfort, and style need to work together.

Athletic Tracks**

For professional running tracks, Sunflex integrates high-quality EPDM granules, one of the key raw materials used in track surfacing systems. We are among the few in India to offer this, ensuring access to premium, internationally trusted components for track construction.

TECHNICAL ADVANTAGES

- Two-layer construction for safety and durability
- Thickness customised for safety and sports performance needs
- Slip-resistant, even when wet
- Resistant to UV rays, weather changes, and heavy foot traffic
- Low maintenance with easy cleaning and upkeep
- Wide range of colours and pattern possibilities

FEW OF OUR FINEST

YOUR FIRST STEP TOWARD YOUR PERFECT SPACE

Thank you for considering Sunflex as your partner. We know choosing the right surface is more than a technical decision. It's about creating a space people can trust, enjoy, and come back to every day.

For us, trust isn't built overnight. It comes from years of delivering on our promises, putting safety first, and never compromising on quality. If you're looking for a partner who treats your project like their own and ensures every detail is right, we'd love to talk.
