

SUNFLEX ProCourt

High- performance PVC
SPORTS FLOORING

TECHNICAL advantages

product performance advantages

- High elasticity & shock absorption that helps reduce player fatigue
- Anti-slip surface for enhanced grip & safety
- Waterproof structure that is ideal for Indian climatic conditions
- Noise reduction properties
- Multiple surface patterns & color options
- Easy roll-out installation system
- Low maintenance & long service life

premium raw materials

We use 100% Virgin PVC compound, ensuring:

- Higher durability
- Better dimensional stability
- Consistent thickness control
- Long-term performance retention

No recycled fillers. No compromise on quality.

certified production standards

All products meet professional sports surface benchmarks.

BWF / ITF / ITTF Standard
Compatible Production

advanced manufacturing technology

Our production process ensures:

- Uniform surface finish
- Enhanced wear resistance
- Superior structural stability
